

APPLICATION RECOMMENDATIONS

IQ Starter is effective as a direct application or fertigation type product. May be tank mixed or injected with other fertilizers or agricultural chemicals after conducting a jar test for compatibility. Always treat a small test area with any experimental blends to determine potential phytotoxicity before making general applications.

TURF SPRAY APPLICATION: Apply 1 to 8 quarts of IQ Starter per acre. Mix with at least equal parts of water and agitate thoroughly. Apply only as directed.

SHAKE WELL BEFORE USING

WARNING: Product contains molybdenum. Application of fertilizing materials containing molybdenum may result in forage crops containing levels of molybdenum which are toxic to ruminant animals. Use only according to manufacturer's directions.

NOTICE TO BUYER

This product is intended for uses as a professional plant food, only. Users must exercise all due professional judgment and caution when applying the product under their own particular growing conditions.

LIMITATIONS OF WARRANTY AND LIABILITY

Green Industries, Inc. and any other seller, warrants only that this product conforms to the chemical description on the product label.
